4LEVELS Solutions Cloud Storage

Introducing **4LEVELS Solutions Cloud Storage**: Secure, Flexible, and Affordable In-Country Cloud Storage Service

The Challenge: Businesses today are increasingly challenged by rising storage costs and the unpredictability of long-term data storage pricing. Navigating these challenges while ensuring secure, accessible, and reliable storage is a key priority for companies across various industries.

Tailored Solution: 4LEVELS Solutions Cloud Storage is a meticulously designed in-country cloud storage service, crafted to address the evolving data storage needs of modern businesses. It offers a secure and easily accessible cloud storage solution, eliminating the burden of hidden fees and charges, thereby providing a highly affordable and predictable pricing model.

Key Features and Benefits:

- **S3-Compatible Cloud Storage:** Offers seamless compatibility with S3 protocols, ensuring easy integration and broad applicability.
- **No Transfer, Egress/Ingress, or Transaction Fees:** Simplifies cost management with a clear, no-surprise fee structure.

- **Predictable, Pay-As-You-Use Pricing:** Allows businesses to pay only for the storage they use, with peak usage monitored and billed accordingly.
- **Ideal for Long-Term Data Retention:** Designed to support long-term data storage requirements, making it perfect for archival and backup purposes.
- **Easy Setup and Web-Based Management:** A user-friendly setup process and intuitive web-based management interface for effortless administration.
- **Support and Maintenance Included:** Continuous support and maintenance are part of our service, ensuring your storage needs are always met.
- **Local Data Storage:** Data is stored locally, ensuring compliance with regional regulations and faster access.

Use Cases:

- **Tape Replacement:** An efficient alternative to traditional tape storage, offering more accessibility and reliability.
- **Offsite Archive and Backup Storage:** Ideal for businesses looking for secure, offsite solutions for their archival and backup needs.

Why Choose 4LEVELS Solutions Cloud Storage?

4LEVELS Solutions Cloud Storage stands out as an essential service for businesses seeking a secure, flexible, and cost-effective cloud storage solution. It provides a straightforward, predictable cost model, eliminating the traditional challenges of hidden fees and complex pricing structures. With our focus on easy setup, local data storage, and a pay-as-you-use approach, 4LEVELS Solutions offers a practical and reliable solution tailored to the long-term storage needs of modern businesses. For the first 30 days, experience our cloud storage service for free and discover how 4LEVELS Solutions can transform your data management strategy.

4LEVELS Solutions FileSpace

Introducing **4LEVELS Solutions FileSpace**: Streamlined Cloud-Native File Service for Distributed Workflows and Remote Teams

The Challenge: In an era of rapidly growing data generation and consumption, accessing object storage with disk-level performance has become increasingly challenging, especially for distributed workflows and remote teams. The need for a solution that offers both the scalability of object storage and the usability of a file system is crucial.

Tailored Solution: 4LEVELS Solutions FileSpace is a software-only, cloud-native file service designed to bridge this gap. By connecting to 4LEVELS cloud

storage, it functions as if it were a local disk, making it ideal for distributed workflows, remote teams, and secure data access, regardless of file size or data location.

Key Features and Benefits:

- **No Hardware Requirement:** Eliminates the need for additional infrastructure, simplifying setup and reducing costs.
- **Predictable Pricing:** Offers transparent, pay-as-you-use pricing, ensuring affordability and adaptability to your usage.
- **Automated Snapshots:** Enhances data protection with automated snapshot capabilities for data safety and recovery.
- **Simple Installation and Central Management:** A user-friendly installation process and centralized management system for effortless administration.
- **Self-Service Snapshot Recovery:** Empowers users with easy recovery options, facilitating quick data restoration.
- **Cross-Platform Support:** Compatibility with Windows, MacOS, and Linux, catering to various IT environments.

- **End-to-End Encryption:** Ensures data security both at rest and in motion.
- **Global File Locking:** Maintains data integrity, especially important in collaborative environments.
- **Scalable and Streamable File Service:** Ideal for edge-to-cloud, cloud-to-cloud, and hybrid workloads, allowing for limitless scaling and on-demand file streaming.
- **High Performance:** Features metadata synchronization and parallel data streaming for optimal performance.

Use Cases:

- **Replacing On-Premises File Servers:** Offers a scalable alternative with the capability to access data at local disk speeds from anywhere.
- **Real-Time Collaboration:** Facilitates efficient collaboration among distributed teams, providing fast access to large files and common data sets.

Why Choose 4LEVELS Solutions FileSpace?

4LEVELS Solutions FileSpace is an innovative solution for businesses seeking a flexible, secure, and efficient way to manage and access their data. It combines the scalability of cloud object storage with the convenience and performance of a local disk system, making it a perfect choice for distributed teams and remote workflows. Backed by our expert support and

maintenance, 4LEVELS Solutions FileSpace ensures seamless integration into your business processes, enhancing productivity and data security. Experience the benefits of 4LEVELS Solutions FileSpace with our first 30 days free offer.

4LEVELS Solutions Server Foundation

Introducing **4LEVELS Solutions Server Foundation**: Advanced Backup and Recovery Service

The Challenge: Modern businesses face the daunting challenge of protecting business-critical data on servers or virtual machines, amidst rising operational costs and the need for stringent risk management and governance standards.

Tailored Solution: 4LEVELS Solutions Server Foundation offers a robust online backup and recovery service designed to safeguard critical business data residing on physical or virtual servers, both on-premise and in the cloud. This service, leveraging industry-leading technology, ensures comprehensive data protection, compliance, and effortless recovery processes.

Key Features and Benefits:

- **Automated Backups:** Hassle-free backups that are automated, ensuring consistent data protection without manual intervention.

- **Secure Data Management:** With a focus on security, your data remains safe and secure, both in transit and at rest.
- **Simple Installation Process:** A straightforward setup ensures you get up and running quickly.
- **Web-Based Management:** An intuitive web-based interface for managing backups, enhancing user convenience.
- **Self-Service Recovery:** Empowers users with the capability to recover their data independently and promptly.
- **Support for Multiple OS and Databases:** Compatible with a wide range of operating systems and databases, providing flexibility for diverse IT infrastructures.
- **Automated Reporting:** Regular reports to keep you informed about your data protection status.
- **Expert Support and Maintenance:** Continuous support and maintenance included, ensuring peace of mind.

Comprehensive Protection Includes:

- **Database Backup and Recovery:** Protect your crucial database assets with reliable backup and recovery solutions.
- **File & Object Backup and Recovery:** Comprehensive file and object-level data protection to ensure no data is left vulnerable.

- **VM & Kubernetes Backup and Recovery:** Tailored backup and recovery for virtual machines and Kubernetes environments.
- **Cloud Storage Solutions:** Leveraging Metallic Cloud Storage for added reliability and scalability.

Why Choose 4LEVELS Solutions Server Foundation?

4LEVELS Solutions Server Foundation stands out as an essential choice for modern businesses looking to protect critical server and virtual machine data. It combines automated backups, secure data management, and easy recovery in a user-friendly package, all while supporting multiple operating systems and databases. This cost-effective, scalable solution, backed by expert support and maintenance, offers businesses peace of mind and simplicity in managing their data protection needs, making it a comprehensive and reliable choice for ensuring data security and compliance.

4LEVELS Solutions Laptop Foundation

Introducing **4LEVELS Solutions Laptop Foundation:** Advanced Endpoint Data Protection

The Challenge: In the modern digital landscape, data created on desktops and laptops is extremely vulnerable to a range of threats, including data loss, corruption, and unauthorized access. Businesses face the critical task of protecting this data while managing the explosive growth in data creation.

Tailored Solution: 4LEVELS Solutions Laptop Foundation delivers an all-encompassing endpoint data protection service for business data on laptops and desktops. Built on industry-leading technology, our solution ensures that your employee laptop and desktop data is not only protected and compliant but also recoverable from today's ever-evolving threats.

Key Features and Benefits:

- **Automated Backups:** Hassle-free, automated backups ensure consistent data protection without manual intervention.
- **Secure Data Management:** With a focus on security, your data is kept safe and offsite, both in transit and at rest.
- **Web-Based Management:** An intuitive web-based interface allows for easy management of backups, enhancing user convenience.
- **Simple Installation Process:** A straightforward setup ensures quick deployment, minimizing disruption to your business.
- **Self-Service Recovery:** Empowers users with the ability to recover their data independently and swiftly.
- **Automated Reporting:** Keeps you informed about the status of your data protection through regular reports.
- **Cross-Platform Support:** Compatible with Windows, MacOS, and Linux, accommodating diverse IT environments.

Our Mission

Maximize the productivity of our clients by anticipating their needs and responding as global team, with urgency and excellence. Deliver innovation that gives 4levels Solutions a competitive advantage in the marketplace.

- **Expert Support and Maintenance:** Continuous support and maintenance are included, ensuring peace of mind.

Comprehensive Protection Includes:

- **Unlimited Storage:** No restrictions on the amount of data you can store.
- **12 Month Retention:** Your data is retained for a full year, providing ample time for recovery if needed.
- **Default Protection Plan:** Includes essential folders like Desktop and Documents.
- **Scalability:** Adapts to your business needs and data growth.

Why Choose 4LEVELS Solutions Laptop Foundation?

4LEVELS Solutions Laptop Foundation is the ideal solution for businesses looking to protect critical data on laptops and desktops. It combines automated backups, secure data management, and easy recovery in a user-friendly package, supporting multiple operating systems and databases. This cost-effective, scalable solution, backed by expert support and maintenance, offers businesses peace of mind and simplicity in managing their data protection needs, making it a comprehensive and reliable choice for ensuring data security and compliance.

4LEVELS Solutions Office 365 Essential

Introducing **4LEVELS Solutions Office 365 Essential**: Advanced Data Protection for Office 365

The Challenge: In today's digital workspace, safeguarding your Office 365 data against deletion, corruption, and ransomware attacks is paramount. Companies require a reliable, comprehensive solution that not only protects their valuable Office 365 data but also simplifies the process.

Tailored Solution: 4LEVELS Solutions Office 365 Essential offers robust, enterprise-grade data protection for Office 365, utilizing industry-leading technology. This solution is designed to keep your Office 365 data secure and easily recoverable, offering peace of mind and operational efficiency.

Key Features and Benefits:

- **Automated Backups:** Enjoy hassle-free, automated backups, ensuring consistent protection of your Office 365 data.
- **Secure Data Management:** Our solution ensures your data is securely stored and protected against potential threats.
- **Easy Installation and Web-Based Management:** A user-friendly setup and intuitive web-based interface make management of your backups simple and efficient.

Our Mission

Maximize the productivity of our clients by anticipating their needs and responding as global team, with urgency and excellence. Deliver innovation that gives 4levels Solutions a competitive advantage in the marketplace.

- **Self-Service Recovery:** Empower your team with the capability to independently recover data, ensuring quick restoration and minimal downtime.
- **Automated Reporting:** Stay informed with regular reports about the status of your data protection.
- **Multi-Platform Support:** Compatibility across the entire Office 365 suite, including Exchange Online, SharePoint Online, Project Online, OneDrive, Teams, and Groups.

Comprehensive Protection Includes:

- **Unlimited Storage:** No restrictions on the volume of data you can back up.
- **Long-Term Retention:** Your data is stored securely for as long as you need it.
- **All-Round Office 365 Coverage:** Comprehensive coverage across all critical Office 365 applications.

Why Choose 4LEVELS Solutions Office 365 Essential?

4LEVELS Solutions Office 365 Essential is an essential tool for businesses utilizing Office 365. It delivers reliable, comprehensive data protection,

combining automated backups and secure data management in a user-friendly package. This solution, licensed per user and offering unlimited storage, ensures that your Office 365 data is always protected, compliant, and recoverable. With 4LEVELS Solutions, you get an affordable, scalable, expert-supported solution, providing peace of mind and simplicity in managing your Office 365 data protection needs.

4LEVELS Solutions Office 365 Essential with eDiscovery

Introducing **4LEVELS Solutions Office 365 Essential with eDiscovery:**
Enhanced Office 365 Data Protection and Compliance

The Challenge: In the complex landscape of data management and regulatory compliance, businesses require more than just data protection. The need to efficiently identify, preserve, and export Office 365 data for compliance purposes is critical in today's digital environment.

Tailored Solution: 4LEVELS Solutions Office 365 Essential with eDiscovery offers an advanced, enterprise-grade data protection solution for Office 365, coupled with powerful eDiscovery capabilities. This service is engineered using industry-leading technology to safeguard your Office 365 data against deletion, corruption, and ransomware threats, while also simplifying regulatory compliance.

Key Features and Benefits:

- **Automated Backups:** Streamline your data protection with automated, regular backups of your Office 365 data.
- **Secure Data Management:** We ensure the security of your data, keeping it safe from potential risks.
- **Easy Installation and Web-Based Management:** A user-friendly setup and intuitive web-based management interface for effortless administration.
- **Compliance Search and eDiscovery:** Powerful tools to efficiently handle compliance requirements, including the ability to identify, preserve, and export data as needed.
- **Self-Service Recovery and Granular Recovery:** Enables quick data restoration, including granular recovery options, minimizing business interruptions.
- **Automated Reporting:** Regular reports keep you informed about the status and health of your data protection.
- **Comprehensive Office 365 Coverage:** Protection extends to Exchange Online, SharePoint Online, Project Online, OneDrive, Teams, and Groups.

Comprehensive Protection Includes:

- **Unlimited Storage:** Store as much data as you need without worrying about capacity limits.
- **Long-Term Retention:** Retain your data securely for an extended period to meet compliance and business needs.
- **Enhanced eDiscovery:** Advanced eDiscovery capabilities facilitate thorough and efficient legal and compliance processes.

Why Choose 4LEVELS Solutions Office 365 Essential with eDiscovery?

4LEVELS Solutions Office 365 Essential with eDiscovery is a comprehensive solution that not only provides robust data protection but also enhances your ability to meet regulatory and compliance requirements. It offers an integrated approach to protecting, managing, and extracting value from your Office 365 data, backed by automated processes, secure data management, and expert support. This powerful tool, available at an affordable and scalable cost, is indispensable for businesses prioritizing data security and compliance in their Office 365 environments.

Our Mission

Maximize the productivity of our clients by anticipating their needs and responding as global team, with urgency and excellence. Deliver innovation that gives 4levels Solutions a competitive advantage in the marketplace.
